

Playground safety is a must - that's why Ultimate RB proudly produces Swing and Slide Mats. They're not only great for playground injury prevention, but they also protect your ground cover from erosion.

SWING AND SLIDE MAT BENEFITS

ECO-FRIENDLY	MADE IN USA	NON-TOXIC
IMPROVES SAFETY	DURABLE	PROVIDES TRACTION
SUPERIOR COMFORT	ISO:9001	PREVENTS PUDDLES
EASY TO CLEAN	ELIMINATES TRENCHING	EROSION PROTECTION

Constant swinging and sliding causes major erosion to erodible surfaces such as grass or wood/rubber mulch, not to mention an unsafe environment for play. When these surfaces' low-points accumulate rainwater, this adds to the deterioration and unattractiveness of the area. Eco-friendly, recycled rubber swing mats and playground slide mats are a great choice for protecting your ground cover under a swing or at the bottom of a slide from erosion. Perfect for reducing displacement of loose fill material and to prevent pooling.

Ultimate RB Swing and Slide Mats not only provide a safe "landing area" for children, but these durable mats prevent the "trenching" caused by the impact and abrasion that naturally occur in these areas. They are available in 5 attractive colors and require no installation – simply lay them in place.

Ultimate RB Swing and Slide Mats provide excellent resilience, performance, and most importantly - traction and support for children at play. The non-slip surface is easy to clean and maintain - just hose off - and will be your playground equipment solution for many years to come.

SWING AND SLIDE MAT SPECIFICATIONS

TYPICAL PROPERTIES

DIMENSIONS

36" X 36" (0.914M X 0.914M)

THICKNESS

2" (0.05MM)

WEIGHT
