surfacing solutions!

www.AccellaCorp.com

Booth 2229 & 2231

Accella creates a new dimension in poured-in-place playground surfacing!

Accella's wide range of experience and technology with polyurethane binder and EPDM crumb rubber applications allow us to offer an array of products uniquely suited for playground installations.

- *Aliphatic binders available for color-fast non-yellowing EPDM surfaces*
- *Custom binder formulations for climatic variations in temperature and humidity*
- *Repair and refinishing systems for existing playground surfaces*
