THE SAFER SURFACE YOU CAN COUNT ON!

When choosing options for playground surfaces, safety and environment are your primary concerns. Tru-Motion™ and Ultimate RB® are your custom pour-in-place playground safety surfaces that are visually appealing, easy to install, low maintenance, and environmentally friendly.

Tru-Motion aromatic and aliphatic binder formulations are specifically designed for

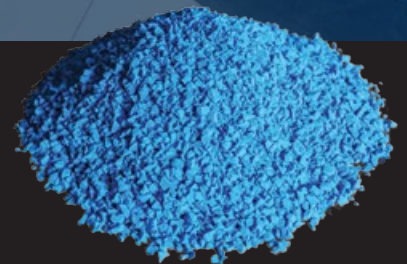

your application and environment. Ultimate RB EPDM formulations are peroxide cured to ensure better cross-link density, weathering characteristics, and physical properties.

Plus, with our ONE-STOP SHOP program, you can receive your EPDM granules and urethane binder products shipped together on one truck – ensuring timely delivery and reduced shipping costs.

FEATURES:

- Single component, aromatic binders
- Color-fast non-yellowing aliphatic binders
- Custom formulations for climatic variations
- Repair and refinishing binders
- 1-year warranty for material defects
- Eco-friendly with solvent-free top coats
- ADA Compliant
- American made and ISO 9001 certified
